

Accelerate learning with Paper & GROW for ELO-P

PAPER

Paper's evidence-backed solutions help districts meet ELO-P's mission to support academic growth:

- **GROW high-impact tutoring**
- **On-demand tutoring**
- **Independent practice**

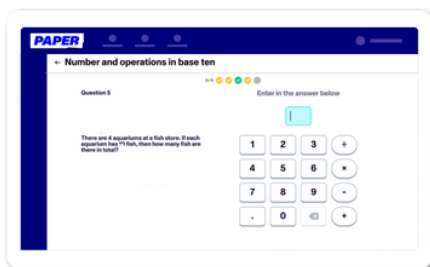

Advancing student achievement after school

GROW CA is Paper's high-impact tutoring program designed to accelerate K–12 math and ELA achievement. The consistent tutor-led, small-group virtual sessions align with classroom curriculums to close student learning gaps, build student confidence, and improve CAASPP outcomes.

Learning support anytime, anywhere

Students can access expert tutors for live, one-on-one help across any subject. From homework help to writing feedback, students receive personalized academic support that reinforces classroom instruction and accelerates progress.

Independent learning to build mastery

Personalized, self-paced interactive tools help students build math, ELA, and literacy skills, extending learning and driving academic progress.

Leverage ELO-P Funds for Paper & GROW

Districts that implement Paper and GROW under ELO-P expand equitable learning time, improve academic outcomes, and reduce workload for support staff. To learn more, reach out to partnerships@paper.co.
