

GROW CA High-Impact Tutoring

Accelerate learning outcomes with proven research-backed instruction

What is GROW CA?

Paper's GROW CA high-impact tutoring program is designed to **accelerate California K-12 student math and ELA proficiency**. Through personalized, small group, virtual instruction with consistent expert tutors, GROW CA boosts student CAASPP scores and confidence.

CCSS aligned, CAASPP readiness

- **CCSS-aligned curriculum** designed in partnership with districts to meet math and ELA pacing and standards
- **CAASPP/EOC assessment** practice with released items, formats, and cognitive complexity integration
- **Bilingual and subject matter expert** tutors for diverse learners
- **Targeted instruction** with small group, consistent tutor-to-student (e.g., 1:3) ratios
- **High dosage**, frequency, and duration with multiple sessions per week (e.g., 90 min total)
- **Effective delivery** with live, two-way video sessions scheduled during the school day

Real measurable outcomes

- 201% increase¹** in math and ELA grade-level proficiency for GROW students in grade 3-5
- 78% of students²** in GROW programs feeling confidence in solving problems independently
- 3.3x increase³** in GROW students reaching state assessment grade-level proficiency

The GROW CA Difference

- **Research-backed program:** Stanford's National Student Support Accelerator recognized GROW CA for design excellence
- **Outcomes-driven:** Real-time progress reports, and weekly assessments provide actionable insights to teachers and administrators
- **Collaborative design:** Customized program built with GROW expert recommendations and aligned to district goals and needs
- **Integrated learning:** Aligns with classroom instruction to reinforce learning continuity
- **Expert trained tutors:** Consistent support from educators using adaptive practices
